The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/537,808	Applicant(s) SHIRAISHI ET AL.	
	Examiner Ing-Hour Lin	Art Unit 1725	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 14 and 20-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 14 and 20-21, the claimed "secondary material" is unclear because its composition defined by "a metallic material different from the main material or an inorganic material" is indefinite. What does the "inorganic material" refer to? In claim 16, line 3, "the whisker" lack antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 10-21 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 08086324.

JP '324 (see abstract) teaches the claimed composite material member such as light weight compound brake disc and method for casting the composite material member having a main material of aluminum or aluminum alloy (base 1), a secondary material of iron or steel (surface layer 3) and an intermediate porous material (laminated material 4) arranged between the main material (base 1) and secondary material (surface layer 3), wherein the porous material

Art Unit: 1725

(laminated material 4) is a two-sheet laminating of 2mm comprising compact of foamed metal (sponge-like metal) or porous metal fiber of diameter size not smaller than 10 micron and with pore volume rate or void content between 30 – 70% (see paragraphs 29+), and wherein the porous material (laminated material 4) is firstly soldered or diffusion joined to the secondary material (surface layer 3) (see paragraphs 21+) then forming the member by joining the soldered or diffusion joined secondary material (surface layer 3) and main material (base 1) by casting and solidifying molten the main material of aluminum or aluminum alloy. Further, Fig. 2 (a) shows the pore volume rate or void content reflected by the hole 7 is higher near the secondary material (surface layer 3).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ing-Hour Lin whose telephone number is (571) 272-1180. The examiner can normally be reached on M-F (9:00-5:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jon Johnson can be reached on (571) 272-1177. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
